

ICEBREAKER CARDS

What's your superpower?

24 icebreaker cards for your table. Every founder's carrying one — a strength forged in the trenches of building something. Some are funny. All of them are true.

HOW TO USE

Print the 3 sheets on cardstock and cut along the dashed lines. As people come in, have them pick up a card and encourage them to share it with others as they visit. In a more organized setting, like a meal or something that starts with a group prayer, prompt them to share with those around them what they chose and why, answering the table talk question underneath it. If your group is small, you can reduce the number of cards that you share.

TIP

One-sided cards — no need to print double-sided.
